Re: New Mission, LLC – EPA's December 4, 2012 Request for Information Pursuant to
Section 104(e) of CERCLA, Mission Trace Shopping Center, Colorado Springs, CO –
Question Regarding 104(e) Letters to Other Potential Sources

Dear Mr. Sisk:

My client, New Mission, LLC, received a letter dated December 4, 2012 from the United States Environmental Protection Agency, Region 8 ("EPA") requesting information pursuant to Section 104(e) of CERCLA.

A list of potential current and historic sources of PCE located hydrogeologically upgradient of Security Water District well S-14 was included in my July 24, 2012 letter to Michelle Marcu (copy attached). Has EPA also sent 104(e) letters to these, and any other, potential sources of PCE located hydrogeologically upgradient of well S-14?

Please don't hesitate to contact me if you have any questions. Thanks very much.

Very truly yours,

Connie H. King
